

Package ‘mopac’

July 23, 2025

Type Package

Title Collection of Datasets Pertaining to Loop 1 ``Mopac''

Version 0.1.0

Description Provides real & simulated datasets containing time-series traffic observations and additional information pertaining to Loop 1 ``Mopac'' located in Austin, Texas.

Encoding UTF-8

LazyData true

Depends R (>= 2.10)

Suggests dplyr, lubridate, tibble, readr, hms

 exits

Exit information for Mopac.

Description

Accurate as of 2021-03-26. Provides basic details for all exits along Loop 1 "Mopac" in Austin, Texas. Exits are unnumbered.

Usage

exits

Format

A tibble with 32 rows and 4 variables:

mi distance from Loop 1 southern terminus, in miles

km distance from Loop 1 southern terminus, in kilometers

exit main road accessed by exit

notes additional information

Source

Scraped from https://en.wikipedia.org/wiki/Texas_State_Highway_Loop_1

 express

Mopac Express Lane Records

Description

Simulated observations of vehicles entering Mopac express lane at RM 2222 / Far West Blvd. Vehicle make/model/color frequencies are based on actual data from rush_hour. Traffic density inferred from ad hoc sampling and City of Austin Traffic Counts.

Usage

express

Format

A tibble with 13032 rows and 6 variables:

direction north: Far West entry point heading to Parmer, **south:** RM 2222 heading to Cesar Chavez

time time of day

plate vehicle license plate

make vehicle make

model vehicle model

color vehicle color

Source

For City of Austin Traffic Counts, visit <https://data.austintexas.gov/Transportation-and-Mobility/Camera-Traffic-Counts/sh59-i6y9>

rates

Mopac Express Lane Rates

Description

Express Lane Rates for Loop 1 "Mopac" in Austin, Texas. Rates correspond to RM 2222 / Far West entry points with pre-COVID weekday traffic. Recommend loading `readr` package so that time displays correctly as `hms`.

Usage

rates

Format

A tibble with 25 rows and 3 variables:

direction north: Far West entry point heading to Parmer, **south:** RM 2222 heading to Cesar Chavez

time time of day

rate TxTag rate in USD

Source

Rates obtained from Central Texas Regional Mobility Authority. <https://www.mobilityauthority.com/pay-your-toll/rates>

rush_hour

Sample of vehicles collected from Loop 1 "Mopac" in Austin, Texas.

Description

Observations sampled in 2.5 minute intervals throughout week of 17 May 2020. Note that although intervals fall within normal "rush hour" timeframe, traffic density is lighter than normal due to COVID.

Usage

rush_hour

Format

A tibble with 962 rows and 7 variables:

day day of the week when observations were recorded

time observation timestamp

commercial indicates whether vehicle is used for commercial purposes

color vehicle color

type vehicle type

make vehicle make

model vehicle model

Source

Real observations collected from northbound Mopac at Far West Blvd.
