

logger_interface

```
graph BT; native_string_logger --> logger_interface
```

The diagram illustrates an inheritance or implementation relationship. A light gray box labeled 'logger_interface' is positioned at the top. Below it is a darker gray box labeled 'native_string_logger'. A blue arrow points from the top of the 'native_string_logger' box up to the bottom of the 'logger_interface' box, indicating that 'native_string_logger' implements or inherits from 'logger_interface'.
